Narrative:

Elements are the common token of the RadQuest realm. Users generally get Elements from Gift Boxes, but they may occasionally get them directly as rewards.

Elements are full of potential to produce RadGems of different colors and materials. They can be fused by RadQuest's Jetty to produce the RadGems that can be used for much more...

Game mechanic:

The user collects **Elements** along their journey, generally via Gift Boxes. They're all the same.
